# MURPHY RENEGADE SPIRIT

US \$

<b>PLANS &amp; MANUAL PLAN #1</b>	<b>\$500</b>
-----------------------------------	--------------

Includes a complete set of professionally drawn blueprints of parts and sub-assemblies, accompanied by an assembly manual. All drawings are full size except the fuselage and engine mount, which are half-size.

<b>PARTIAL PARTS KIT PLAN #2</b>	<b>\$6,950</b>
----------------------------------	----------------

Includes custom extruded material, pre-bent tubes, hydro-formed ribs, main and rear wing spars as well as aileron spars and standard fibreglass parts. Plans and assembly manual are also included but instruments, engine, wiring and chemicals are not. It does not include flat sheet, hardware, wheels, tires, brakes, cable, etc...

<b>FULL MATERIALS KIT PLAN #3</b>	<b>\$15,950</b>
-----------------------------------	-----------------

Includes all items from the Partial Parts Kit as well as all raw material, hardware, machined fittings, wheels, tires, fabric etc. Also included as standard equipment are top wing ailerons, hydraulic disc brakes, dual tanks, fuel shut-offs, pitot tube, water drains, channel kit and a steerable tailwheel. Plans and assembly manual are included but instruments, engine, wiring and chemicals are not.

<b>QUICK-BUILD KIT PLAN #5</b>	<b>\$21,950</b>
--------------------------------	-----------------

Includes all items from the Full Materials Kit taken to a pre-manufactured stage as well as partial pre-assembly of fuselage and pre-jigging of wings, cabane struts, etc. There is no need to build assembly jigs, therefore building time is sharply reduced. Not included in the kit are the instruments, engine, wiring and chemicals.

<b>ASSISTED BUILD (add to the price of the Complete Kit and the Quick Build)</b>	<b>TBD</b>
--	------------

We will tailor a build program to fit your needs and budget.
