From Canada 🇨🇦 to the United Kingdom 🇬🇧 – Murphy Aircraft at LAA Rally 2025

This August, Murphy Aircraft is crossing the Atlantic to take part in **LAA Rally 2025 “Inspired to Fly”**, held at **Leicester Airfield, England, August 29–31**. The Rally is one of Europe’s premier fly-ins and a celebration of grassroots aviation, drawing thousands of pilots, builders, and enthusiasts from across the continent.

About the LAA Rally

The **Light Aircraft Association (LAA)** is the UK’s hub for sport and recreational aviation, supporting homebuilding, restoration, and safe flying through its engineering oversight program. The Rally is their flagship annual event, offering:

- A vibrant fly-in atmosphere with aircraft from across the UK and beyond.
- Exhibitors and manufacturers, showcasing aircraft, parts, and services.
- Homebuilders’ marquee, where visitors gain hands-on skills and inspiration.
- Talks and forums from industry leaders and experts.

It’s not just an exhibition — it’s a community gathering that brings together those who believe in building and flying their own aircraft.

Why Murphy Aircraft Is Exhibiting

Murphy Aircraft has an enduring presence in the UK, with models such as the **Rebel, Elite, Renegade, and Maverick** all finding their way into British hangars. These aircraft embody what the LAA represents — practical, rugged, and builder-friendly designs that make personal aviation accessible.

By exhibiting at the Rally, we’re reaffirming our commitment to the UK market and connecting with builders who share the Murphy spirit: hands-on, adventurous, and ready to fly farther. Visitors will have the chance to learn more about our proven kits, meet our team, and discuss how Murphy Aircraft continues to evolve for modern homebuilders.

Join Us at Leicester Airfield

We invite all Murphy owners, builders, and aviation friends to stop by our stand at the LAA Rally 2025. Whether you’re in the early stages of planning a build or a long-time Murphy pilot, this is the perfect chance to connect with the community, share experiences, and discover what’s next in Murphy Aircraft innovation.

✦ From Canada 🇨🇦 to the UK 🇬🇧, we’re bringing Murphy’s spirit of practical innovation to one of Europe’s most inspiring aviation gatherings.

Spotlight on the Murphy Builder Space

Building your own aircraft is one of the most rewarding experiences in aviation — but not everyone has a fully equipped workshop or the ideal space to make steady progress. That's why we created the **Murphy Builder Space**.

This dedicated facility gives Murphy builders the chance to work in a **purpose-built environment**, complete with the right tools, resources, and guidance nearby. Whether you're tackling your first major assembly or refining the details that bring your aircraft together, Builder Space helps you build with confidence and efficiency.

It's more than just a workspace — it's a **supportive community hub** where fellow builders share tips, encouragement, and milestones. For many, Builder Space has become the difference between delays and **steady, enjoyable progress**.

If you've ever wished you had the right environment to keep your project moving, the Murphy Builder Space is designed to make that possible.

Murphy Radical Easy-build Kit: Secure Yours Before the Wait Grows

The **Murphy Radical Easy-build Kit** continues to gain momentum worldwide, with more and more builders securing their place in line. Thanks to its dramatically reduced build time — **up to 2x faster than before** — the Radical has quickly become one of the most popular kits in our lineup.

But with rising demand comes a reality check: **waiting times are increasing**. Orders are stacking up, and production slots are filling quickly.

👉 If you've been considering the **Radical Easy-build Kit**, now is the time to act. **Reserve your kit today to avoid extended delays and make sure you're flying sooner, not later.**
